Instructions for Using this Record Book

This record is designed to be the place for you to keep records on your animal projects. Read through the book carefully and complete all sections requested (for example, project planning, feed and health care purchases, supplies and tools, results from shows, and a financial summary). Do not leave any sections blank unless they do not relate to your project animal. It is important that you do your own work, but ask your 4-H leader, Extension Agent, parents, or other 4-H volunteers for help when you do not understand something.

This project record book is for record-keeping only. Information about how to raise these animals can be found in various 4-H Project Guides. Copies of project guides may be obtained from your local Virginia Cooperative Extension office.

- 1. Read through this book and familiarize yourself with the kinds of records you will need and where information should be recorded. Discuss the book with your parent and/or 4-H leader.
- 2. Complete essential information when you first start your project, such as the cover page and the project planning page. Share your goals with your 4-H leader.
- 3. Keep your records up to date. Record information as it occurs. Consider setting aside specific times during the project when you will work on your record book.
- 4. Write neatly and legibly. Use only one color ink.
- 5. Include at least one photograph of you with your project animal, but do not include more than two pages of photos. Additional clippings should be displayed in a scrapbook, not this record book.
- 6. Maintain your book in a 3-ring notebook/binder or folder.
- 7. Write a project story that captures what happened during your project. Discuss your goals, your activities, your challenges, and your accomplishments. Project stories must be at least five sentences; more experienced 4-H members' stories should be more in depth.

Revised 2007 by: Kelly Mallory, Extension Agent, 4-H Youth; Kaci Coppedge, Extension Agent, 4-H Youth; Cyndi Estienne, Extension Agent, 4-H Youth; Mary Elizabeth Williams, Extension Agent, 4-H Youth; Jocelyn Dailey, Extension Agent, 4-H Youth; Leslie Prillaman, Extension Agent, 4-H Youth; Bertha Durbin, 4-H Volunteer; Sandra Turner, 4-H Volunteer; Mark Walberg, Extension Animal Science Specialist, Virginia Tech; Celeste Crisman, Extension Equine Specialist, Virginia Tech; David Winston, Extension Dairy Specialist, Virginia Tech.

Project Planning

This page should be completed at the start of your project and share it with your 4-H leader.

1.	Set at le	east three goals for yourself this year.
•	What do	you want to learn?
•	What do	you hope to accomplish?
•	What nev	v activities do you want to try?
Ple	ease tell u	s about your project animals (check all that apply)
		I purchased my project animals
		My project animals are bred & owned (from a ewe in my flock) I lease my project animals
	ā	I board my project animals at another farm

Project Planning

1. What factors will you consider when selecting your project (breed, age,	, price, muscling, etc)?
2. Where will you get your project? Reasons for selecting that breeder, f	arm, or business?
3. How much do you expect to spend on your project?	
Purchase price or value of the animal \$	
Cost of Feed \$	
Cost of Supplies \$	
Other Costs \$	
Expected Total Expenses \$	
4. How will you pay for your project animal and expenses?	
After completion, show this page to your 4-H leader fo	or approval.

Animal Care and Management

Your project requires regular care and management. List the things necessary to take care of your project animal(s).

	.~.
Include the followir	עו

- Feeding and watering practices
- Grooming (clipping, trimming, foot care, etc....)
- Health practices and medicines
- General Management (cleaning living area and feed pans, halter breaking, training, etc...)

•

Daily—Things done every day
Example: fed animal , gave fresh water, spent time with animal
Weekly—Things done once a week
Example: Cleaned feed and water containers, gave new bedding
Monthly—Things done once a month
Example: Groomed my animal
Yearly—Things done one time or occasionally throughout the year
Example: Trimmed feet

Equipment and Supply Inventory

At the beginning of the 4-H year, take an inventory of what equipment and supplies are on hand. If the cost is not known, estimate the replacement value. Add new equipment or supplies you purchase to the list. If equipment is shared between 4-H members, divide the cost between

Beginning Inventory - Equipment on hand at beginning of the project year Remember that these are not "new" items. Wear and tear occurs on equipment we use again from year to year. These items will depreciate (go down in value). Please take this into account when putting a dollar value on your inventory items.

Amount & Kind	Beginning	Value End Value
Ex: 3 used rope halters	\$12.0	99.00

New Inventory - Equipment and supplies purchased during the project year Wear and tear occurs on equipment as we use it. New items will depreciate (go down in value). Please take this into account when putting a dollar value on your inventory items.

Feed Records and Expenses

Keeping good feed records is important. A good practice is to enter your feed expenses when you buy feed. Put a calendar in the barn and write down the amount and the kind of feed used each day. At the end of the month, total each kind of feed used and its cost and record the information below.

Feed Tag Information

Please attach a tag or label from one feed being used for your project animal. If a home-made mix is used please describe the mix on a separate page.

- 1. What production level or type of animal is this feed designed for? (Ex. lactating animal, growing animal, etc....)
- 2. What is the Crude Protein level of this feed?
- 3. What is the main ingredient in this feed? (Hint: if the answer is not clear, it's probably the first ingredient listed.)
- 4. Is this a medicated feed?
- 5. What is the active drug ingredient?
- 6. Is there a withdrawal time of this drug ingredient?
- 7. The TDN (Total Digestible Nutrients) level of a feed indicates energy value Please calculate the TDN level of this feed. Crude fiber level can be found on your feed tag.

Feed Summary

Calculate the total amount of feed used and the amount spent of feed. Leave any blank that do not apply. Complete the pie charts below.

Suggestions for Proper Administration of Animal Drugs

- Properly restrain the animal before giving injections
- Give medications according to label instructions.
 Subcutaneous (Sub-Q) injection go under the skin in the neck.
 Intramuscular (IM) injections go in the neck muscle. If given an potion ALWAYS choose Sub-Q.

4-H Story

The motto of 4-H is "learn by doing". Each year we learn something new by participating in a 4-H project. Please write a story that explains:

- What you have learned
- New skills you have gained over this past year in 4-H
- What goals you accomplished. If you accomplished your goals, how did you do so?

Other Examples that you may consider writing about include: Something that happened that was funny, sad or exciting, Challenges you faced and how you overcame them, Who helped you with your project and how they contributed, Things you are most proud of. Feel free to relate your 4-H experience to other parts of your life (school, home, family, friends, etc..). Stories must be <u>at least five sentences</u>.

** Please limit yourself to a maximum of two photo pages. **
Additional memorabilia should be displayed in a scrapbook or 4-H portfolio.

*Optional—Record Book Scorecard

4-H Members: Leave this page blank. The person judging your book will complete the score card.
